# DF3000 ELEVATOR

DF3000 ELEVATOR, represents a compact solution ideal for small demolitions and events. It can be used for dust suppression or for cooling. Protected and robust it's an ideal rental product. The hydraulic mast can be lifted from 3 to 5 meters with a simple button. Easy to use and easy to prepare: simply connecting the Df3000 ELEVATOR to the water main and operate the machine engine. The machine will spray a very thin fog, made of microscopic particles all around reaching up to 30 meters in best weather conditions.

Data and informations in this table might vary without advise.

Technical Specifications		
Fan power	kW	3
Booster Pump	kW	1,1
Water Connection		Camlock
Coverage	mt	30*
Water Consumption	l/min	17
Electrical oscillation	°	340
Nozzles		12
Engine	type	Kubota D1105
	fuel	Diesel
	HP	11,3
	RPM	1500
Generating Set	kVA	10
	V	380
	Hz	50
Dimensions (LxWxH)	cm	120x120x255
Weight	Kg	1277
Lifting System		Hydraulic
Maximum height	mt	5,1
Fuel tank	lt	300

\* without wind
